

Digital Signage for the Masses

Infomedia360.com Rocks the World with Affordable Easy-to-Use Digital Signage

InfoMedia360
Digital Signage Solutions

Company hits a home run

Jimmy Olsen
Germantown, MD

We asked Infomedia360 to tell us about their products.

"Our competitors offer high priced and very complicated software that is difficult to use. Others charge extra for items such as templates, installation and training. We include all of that for one low price. Our cloud based solutions can be accessed from anywhere via web browser. We have designed systems that are very secure and will scale to fit any size hospitality property."

"One of the best features is how easy it is to use our content management system (CMS). It is a simple drag and drop system that blows away the competition. We have customers who abandoned their old big dollar software to move to our CMS. They LOVE OUR SYSTEM. They say the other software is time consuming and too difficult to use."

DIGITAL SIGNAGE PACKAGE
(offer expires October 31, 2018)

Industry leader Pinnacle Communications adds Digital Signage to its services offered.

Pinnacle offers best deal in Digital Signage

Lois Lane
Metropolis, MD

The 28 year old company has added digital signage to their extensive list of services. Signage packages include hardware, easy to use CMS, installation, training and 24/7 service. Customers love the high quality professional system. "Its so much easier than our old CMS. A real time saver" declares Michelle general manger of a hotel in Houston. Alina from Maryland describes it as "very user friendly" and "fun to use".

Pinnacle Communications is the industry leader in the hospitality field. They provide phone systems, high speed internet, on premise and cloud hosting services. They also offer satellite TV, security systems and digital signage to over 5000 hotels. The company is a complete end-to-end service provider. "We offer the broadest range of solutions for the hospitality world. We do it all".
