EXCLUSIVELY FROM PINNACLE COMMUNICATIONS

THE HOSPITALITY INDUSTRY’S MOST ADVANCED HOSTING APPLICATIONS

“...the number one nationwide telecommunications provider”

(800) 644-9101
“who you gonna call ?”

Within the Lodging and Hospitality Industry, it's almost anticipated and expected that the industry's leading and most recognized supplier would be the first to offer hotels the absolute ultimate in hosted solutions.

And.....because Pinnacle understands the industry after its 25+ years of experience and currently providing monthly services for more than 500,000 guestrooms, it has developed the right hosting solutions for every class of service and every hotel, big or small, at the best possible cost.

Pinnacle understands that a hotel's operations are critical, 24/7, and that loss of service, means loss of revenue. They realize that everything has to work, when it is supposed to and has spent years in the development and planning stages to prepare for the future of hosted solutions, today!

The Gannett Private Digital Network

Pinnacle Corporation has an agreement with Gannett Co. to offer hotels the ability to connect to one of the world's most renowned and sophisticated private networks in existence.

Pinnacle shares the same nationwide Tier 3+ datacenters that are staffed 24/7/365 with management and technicians to insure one of the industry's highest records for continuous up-time, reliability and security.

Only Pinnacle Hosted Solutions can offer the Lodging & Hospitality Industry this level of off-premise cloud hosted applications and solutions.

Pinnacle’s Proprietary Hosting Solutions

It might be enough to say that 'your' hotel's Voice PBX or PMS system hardware is just a few isles away from mission critical servers used to manage and distribute the nation's number one newspaper, ‘USA Today’ and 82 other national newspapers, 43 broadcast TV networks, dozens of website, 2,000 offices and 30,000 employees all owned and operated by the Gannett Company......

But, we'll be happy to explain why Pinnacle is the best possible hosting solution available for hotels of any size, anywhere!

Pinnacle Hosted Solutions has invested in and developed its own set of proprietary and exclusive hosting applications, guaranteed to provide hotels with advanced features and performance at very substantial cost saving.

Hosted applications provide many of the exact same tested and proven benefits and features of integration and consolidation as found in Pinnacle’s 'on premises' Hotel360 applications, but without the higher cost of hardware and on-site service requirements.
