Pinnacle Installs Full Complement of Systems For Newly Opened Cambria Hotel, College Park, MD

Cambria Hotel College Park
8321 Baltimore Ave,
College Park, MD 20740

Only a short walk to The University of Maryland's massive campus, the new Cambria Hotel is an exciting addition to the high energy town of College Park, MD. The stylish 150 room hotel is designed for both leisure or business guests offering special meeting rooms and is close to DC and the other regional attractions. Locals are also happy to see the new on-site eatery 'College Park Grill' that offers classic entrees such as ribs, steaks, chicken, and fish in an upscale setting.

Pinnacle installed a turn-key package that included: a Mitel 3300 PBX, Cetus guestroom phones, Ruckus HSIA, HikVision surveillance and Samsung TV's along with facility cabling and related networking.

"It's always better for everyone when we can provide and coordinate the installation of the major components and systems that need to work together from one company," says Gary Lashley, Pinnacle National Account Manager who secured the project, "that way we have better control of the installation schedule and system testing.

"This is our second new hotel project in College Park within a year, says Bill Mitchell, Pinnacle CEO/VP Hosted Solutions, "we are seeing more and more new construction across all brands, sectors, and class of service. It's such a strong indication for the lodging industry as a whole and our secure leadership position."
